**22nd<sup>h</sup> March 2022**

### **IFA and IFA2 Charging Methodology Consultation**

Dear Market Participants,

National Grid Interconnectors Limited (NGIC) and National Grid IFA2 Limited (NGIFA2) are proposing house-keeping amendments to the Charging Methodology for the IFA 2000MW HVDC Interconnector and the IFA2 1000MW HVDC Interconnector, both of which connect the British and French electricity transmission systems.

This consultation opens on the date of this letter and will close on Friday 22 April 2022.

#### **Charging Methodology amendments:**

The proposed modifications to the Charging Methodology are updates to reflect the end of the Brexit transition period, the go live of the IFA2 Interconnector in January 2021 and the current systems used to allocate interconnector capacity.

#### **Consultation documents:**

This consultation includes track change versions and clean versions of the proposed modifications for the Charging Methodology. NGIC and NGIFA2 invite market parties to review the documents and provide feedback.

The consultation and supporting documents can be obtained on the NGIC website, as follows:

<http://ifa1interconnector.com/notices/consultation/>

#### **Consultation responses:**

NGIC and NGIFA2 would like to invite feedback from Customers and Market Parties on the above Charging Methodology amendments.

**The latest date for responses to this consultation will be 17:00 BST on Friday 22<sup>nd</sup> April 2022.** All responses should be titled **“Response to IFA/IFA2 Charging Methodology consultation, March 2022”** and are to be submitted via email to [ifa.customerenquiries@nationalgrid.com](mailto:ifa.customerenquiries@nationalgrid.com).

When responding please state your contact details and whether you are responding as an individual company or representing the views of an association.

If all or part of your response is in relation to either IFA or IFA2 but not both, then please indicate accordingly. Otherwise we will treat your response as applying to both IFA and IFA2.

Please note that in parallel with this consultation RTE, NGIC and NGIFA2 are consulting on amendments to the IFA and IFA2 Access Rules, documents for which can also be obtained on the above IFA and IFA2 website.

If you have any questions in relation to any of the above, please contact:

Email: [ifa.customerenquiries@nationalgrid.com](mailto:ifa.customerenquiries@nationalgrid.com)

**Yours faithfully,**

**Ruben Pastor-Vicedo**  
**Commercial, Regulation and Strategy Manager**
